**The Economic Plunge**

Marci and Marci Company Ltd, a large clothing company, has been operating in Georgetown, Guyana, for the past fifteen years. Recently, the company experienced a significant drop in sales. This contributed to the low profit returns of 45–60 per cent for the last two years.

After a review of Marci and Marci's financial report for the period 2012–2013, the majority of the board members, at the last Annual General Meeting, voted on the following three major changes to the company's operations:

- Downsizing the company to a small business
- Diversification of the company's product – stop manufacturing clothing, and instead retail cellphones and computer accessories which seem to be in high demand
- Change from the traditional to a modern office system

Following the decision made by the board of Marci and Marci, the company's mission, vision and objectives have to be changed to reflect its new perspective.
